

Eyelash Extensions – Post-Care

We offer the following recommendations to keep your eyelash extensions looking good. With proper care and fills your lashes can stay beautiful for as long as possible

For the first 24 Hours after your treatment:

- Do not moisten lashes.
- Avoid prolonged exposure to steam in the shower.
- No saunas and or steam rooms.
- Do no have any other facial treatment.
- No Swimming.

Home Care:

- No make-up around the eye area.
- Do not apply lash tint or lash perm.
- Avoid pulling or rubbing your eyes.
- Do not use eyelash curlers with your extensions. With proper application you will not need to.
- Only use oil-free makeup remover.
- If your lashes are tangled or crossed over, use the lash brush given to you at your appointment to gently brush them straight and put them into place.
- Proper hygiene is very important. Your Lash expert will advise you the proper cleanser product that may be used.
- After shower avoid rubbing lashes, it's best to blot dry and air dry.
- Use care applying facial and eye creams, avoid the lash line.
- We recommend touch-up appointments every 2 - 4 weeks to maintain your new look.
